## 5 fashion colours

Athens takes its inspiration from the Parthenon. There's a suggestion of aged white marble; timeless elegance.

London is embred with the colour of a cashmere coat on a foggy winter day; earthy and perfectly matched to the brown hues of nature.

Think claret and a red beret and you're on your way to Paris, a truly passionate paver.

Prague is a cobblestone city, and this paver echoes those ageless grey tones. It's a hue that goes with everything.

Rome is the crema atop an espresso and a steaming bowl of carbonara. Bellissimo!

## 2 surface finishes

Euro pavers are available in a classic smooth finish or slate textured finish.

## 5 landscaping ideas

The Euro Paving System adds sophistication to a range of Australian landscaping applications:

- Courtyards**
- Pathways**
- Driveways**
- Feature areas**
- Poolside**

(bullnose available for pool edges)

Paver size: 400 x 400 x 40mm

Average number per m<sup>2</sup>: 6.25

Average number per pallet: 108

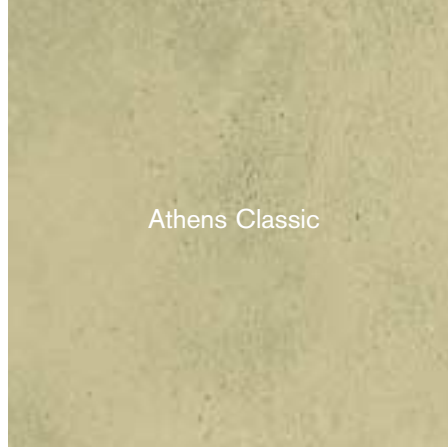

Average kg per unit: 13.62 (73/tonne)

We recommend that you seal Euro paving to protect and intensify colour.

Euro paver colours vary under different light conditions.

Sealed pavers are typically a shade or two darker than unsealed pavers. Refer to display pavers for accurate colour matching.

Euro pavers have an 'Exposure Grade' category in accordance with Australian Standards (AS/NZS 4455:1997), making them salt resistant and suitable for laying around salt water pools.
